VOLLRATH

VCBA118-37

120-volt frozen-beverage machine with one 1.6-gallon (6-liter) bowl

The frozen-beverage machine by Vollrath is designed for a variety of frozen treats including slushies, granitas, smoothies, cocktails and more. The clear bowl provides excellent product visibility, gently illuminated by an interior light. Easy-to-use controls are customizable, allowing you to adjust temperature and consistency for increased versatility. A magnetic drive system is more reliable and durable than a traditional mechanical drive system, resulting in less maintenance and longer service. The large freezing surface and high-quality compressor make this machine more efficient, allowing it to reach ideal temperatures quickly, and the gasketless spigot design makes cleaning simple, all of which save you valuable time.

SPECIFICATIONS

UPC	671080737485
(W) Width (IN)	7.75
(D) Depth (IN)	19.5
(H) Height (IN)	23.75
Amps	4
Hz	60
Plug	NEMA 5-15P
Voltage	120
Capacity (L)	6
Container Capacity (GAL)	1.6
Weight (LB)	58
