

LOW PROFILE HEAT STRIPS

Take your hot food serving area to the next level with the Vollrath® low-profile heat strips. The sleek, slim design promises stellar food visibility, while the powerful heating maintains perfect serving temperatures with impressive efficiency. Available in a wide variety of colors and sizes, these reliable heat strips are sure to meet your needs and match your brand. Offering exceptional dependability and performance, these low-profile heat strips are the best choice for any entrée, side, snack, or dessert that must be kept perfectly, appetizingly warm.

- Slim design is 65% smaller than the original Vollrath heat strip and 19-35% smaller than the leading competitors, creating a clean appearance and improving visibility
- Designed to maintain ideal serving temperatures for all your hot food items by providing a consistent, even blanket of heat
- Powerful heating element and bright annealed reflector maximizes heat production and efficiency and offers up to 14% more heat penetration than the leading competitive heat strips when heating a 12- x 20-inch pan
- Reflector ensures consistent, even heat distribution to better maintain optimal food quality
- All units come standard with strong, 3-inch mounting brackets. Optional 1- and 2-inch brackets can be purchased separately
- Choose from infinite controls, that allow you to adjust temperature as needed, or a toggle control for a simple on/off switch
- Choose from seven color selections including: anodized aluminum, chrome, brass, black, white, silver vein, and copper vein powder coat options

Infinite Control

Toggle Control
