# MODULAR INDUCTION DRY WELL DROP-INS

**Engineered to Empower**

Induction dry well drop-ins use powerful induction technology to keep food hot and ready to serve.

# Modular Induction Dry Well Drop-Ins

Thanks to reliable dry heat and powerful induction technology, the Vollrath modular drop-in induction hot well delivers superior performance and convenience. Made of stainless steel and insulated with high-density glass fiber, this hot well is equally durable and high-performing, and the induction heat is more efficient and accurate than steam. Two induction zones per well with adjustable temperature controls ensure easy operation and versatile, precise heating. Without the need for water, steam, or drains, this drop-in hot well offers effortless operation and exceptional food quality, all in a sleek design that's easy to install, clean, and maintain.

## Features & Benefits

Stainless steel construction is durable and long-lasting

Powerful induction heating is faster, more precise and 2.9 times more efficient than steam

Adjustable, remotely mounted temperature controls ensure easy operation and temperature accuracy

Two induction zones per well offer exceptional versatility

Insulation traps heat and maximizes energy efficiency

Dry induction heating means there's no need for water, steam or drains

## Pair With Induction-Ready Steam Table Pans

For maximum energy efficiency and food quality, pair our steam table pans with your modular induction dry well drop-in. Durable stainless steel pans create a polished look while delivering efficient performance.
